

CBD Pioneer Sacred CBD Introduces New Online Wellness Platform to Bring Balance to Mind, Body and Soul

Partners with Holistic Wellness Expert Artisan Farmacy to Combine CBD Products with Wellness Advice

PRESS RELEASE UPDATED: MAY 1, 2020

CHICAGO, May 1, 2020 (Newswire.com) - CBD Pioneer Sacred has introduced a new online platform that pairs its full-spectrum, naturally derived CBD products with exclusive advice from leading holistic wellness experts from Artisan Farmacy, a community of "wellness artisans" dedicated to unleashing their abilities to heal from within and crafting their most vibrant state of being.

Delivered in a series of articles and short videos at www.getsacred.com, the platform helps users incorporate CBD products into wellness routines that everyone can do on a daily basis. Together, these routines can help people

relieve the pain, stress and anxiety many are experiencing in these unprecedented times.

“In a time where we can’t interact with our customers at our retail locations or events, this new platform continues my mission to connect, share the knowledge and empower people to live their best lives,” said Sacred Founder Silvia Orizaba. “It’s also a great way for people to understand the benefits of our full-spectrum CBD products, including my signature Infused Pain Balm and delightfully flavored Wellness Tinctures,” said Orizaba.

“I’m very excited to be partnering with Sacred on this platform,” said Artisan Farmacy founder Corene Summers. “I love the Sacred products and believe strongly that CBD is important to a holistic wellness lifestyle. The content we are creating will be both informative and fun for people,” said Summers.

The new platform launches on May 15.
